Summary

I'm a developer but not the conventional one. I have up to 6 years total experience coding. I have 4 years working experience and I'm a full stack developer. Despite being young, I've participated directly in the launching of 4 Products in which 2 are doing fine <https://go.softgreen.ng> and <https://rentout.app>.

I've worked in various development companies ranging from Techlava, BiZz on Info, Voxforem Technologies. I work for Value and Impact. I've spearheaded 2 open source developments and contributed in many such as DSA, Sphp, Skish and LookOut.

Experience

Technical Lead/Co-Founder

Softgreen Agribusiness Limited

Aug 2022 - Present (8 months)

I oversee the development of a web app go.softgreen.ng and the architectural design.

I worked with the DevOps Engineer and I ensured all-time website efficiency and availability using Docker, and AWS.

I improved the web app's UI and UX allowing users a smoother experience.

I worked on a localization feature that generates website content based on users' location

Frontend Engineer

Rentout

Apr 2022 - Present (1 year)

I implemented and developed UI Designs for the actual website.

I developed the functionality and integration with the backend.

I worked with the project manager and increased the website SEO using sitemap generation, keywords mapping e.t.c

I developed a share feature that turns user's listing to image.

Contract Fullstack Developer

Shado Books Pvt Ltd

May 2022 - Jul 2022 (3 months)

I upgraded design of a legacy e-commerce website.

I implemented Firebase push notification on Blood Donation Mobile Application.

I worked majorly with PHP, Bootstrap and Android Studio.

Full Stack Developer Voxforem Technologies

Mar 2022 - Jun 2022 (4 months)

I built school management system iOS and android applications using ionic vue.

I developed custom modules for Dolibarr, an open-source CRM.

I fixed bugs and integrated android and ionic applications with backend rest API.

I worked with waterfall methodologies.

Full-stack Developer

TechLava Softwares

Sep 2020 - Jun 2022 (1 year 10 months)

I built 3 websites and admin panels with a team of 3 developers, all within 6 months.

I supervised a team of contracted web developers.

I efficiently delivered using technologies such as Sphp, Bootstrap, Javafx and Vue.

Mobile Developer

Techiehealth Pharmacy

May 2021 - May 2022 (1 year 1 month)

I designed and implemented mobile UI designs to ionic vue Components.

I collaborated with other developers to configure an inventory management system in Python.

I worked by Agile methodologies, with a sprint of 2 weeks.

I completed the company's website in less than 2 weeks together with other developers.

Freelance Web Developer

Shado Books Pvt Ltd

Oct 2021 - Oct 2021 (1 month)

I delivered mainly with Laravel and Bootstrap.

I improved the Frontend design for a school management system software.

I proposed to the lead developer on ways to improve the website's architecture.

Frontend Developer

MJM GROUP

Aug 2018 - Sep 2020 (2 years 2 months)

I developed simple website using Bootstrap and Javascript.

I'm worked on simple Java and JavaFx tasks.

I participated in the launching of a social media product named Aicawap
